Subject: I oppose the settlement

I am outraged that the solution to years of predatory marketing, flagrant lies that extended all the way through the MS public trial, and anti-competitive strategy is rewarded with such a lame settlement.

The failure to promote true diversity will one day unleassh a catastrophe, given how abysmal MS has been about security.

I oppose the settlement, and am very angry that the DOJ has failed to fulfill its civic obligation to protect American citizens from such blatant law-breakers.
